

Graduate Program in Spintronics

# Lectures by Prof. Tomasz Dietl

8th March (Thu.)

16:00 –

**Central spin problem  
- a confined electron spin  
coupled to surrounding  
nuclear or magnetic spins**

Science Complex B721  
Graduate School of Science  
Kita-Aobayama Campus

16th March (Fri.)

16:00 -

**Topological insulators of  
narrow-gap semiconductors**

Room A401  
Laboratory for Nanoelectronics  
and Spintronics, RIEC  
Katahira campus

Prof. Tomasz Dietl

International Research Centre MagTop  
Institute of Physics,  
Polish Academy of Sciences

WPI-AIMR and RIEC, Tohoku University
