

Graduate Program in Spintronics Seminar

Optical observations of dynamics in spintronics applications

Prof. Robert J Hicken
University of Exeter, UK

10:00am – 3:00 pm

Monday, February 25, 2019

10:00–11:50 Lectures:

- “Current-induced precession and switching by means of spin-orbit torques”
- “Optically-induced dynamics of exchange springs”

13:00–15:00 Students’ poster discussion

We welcome the spintronics students of GP-Spin and Tohoku university to present their work in posters and have discussions with our guests.

Venue: 103, South lectures building, Electric Eng. Dept., Aobayama campus
(電気系南講義棟 103)

Registration: On the event, free of charge
Contact: Muftah Al-Mahdawi (Ando lab.)
